

Dear Voneat

I think we go now online.

I made all quizzes for book No.1 and will go on every day for the other quizzes for book 2 and 3

First some question.

When we go online, is there a free tryal for 7 or 14 days without registration
(Can I register direct, if I not wont to use the tryal time)

Is it possible to make the collar for 75 – 99% in blue / bright blue
(It is confusing me the dark brown collar)
Only its easy for you to change. Otherwise we let it be.

If possible?

A wilcome pup up the customer open the APP

(only show first time app is installed and then you can read it in the menue bar)

Welcome

We are delighted to present our playful Khmer learning app. Learning Khmer has never been easier. Finally, a vocabulary trainer for learning to read and listen easily.

Simply play for a few minutes every day, whenever and wherever you want, and your success will surprise you.

This app is also a brilliant complement to the professional Khmer language school with the bestsellers "Learn Cambodian Everyday" from Khmerlessons and was developed as a fast-learning course or as additional training to the book series and live online courses from Khmerlessons.

Please note that the original book series contains additional information, grammar, and exercises. We also recommend learning Khmer with the books and with our professional live teachers.

I, Martin H., am proud to have created this app together with Sraymon and Dara Hok (Khmerlessons) and I'm looking forward to using it, as I'm currently learning Khmer myself.

And finally, a huge thank you to our programming expert Voneat and her team.

You can find the instructions in the menu QUIZZ or simply try it out.

So let's begin...

Quiz

Once you've completed a lesson, you'll be taken directly to that lesson's quiz. Alternatively, you can access all quizzes at the bottom of the app.

After finishing each quiz, your progress will be displayed in color, both within the lesson and on the quiz itself:

-  Red: 0–50%
-  Yellow: 50–75%
-  Blue: 75–99%
-  Green: 100%

Every time you open the app, you'll be taken directly to your most recent lesson.

If you want to delete all progress, simply delete the app from your mobile device and reinstall it.

If you have any questions, spot any mistakes, or have ideas for improvement, please don't hesitate to contact us.

Now we wish you great success learning Khmer with Khmerlessons.com — our complete learning system!
